

Test for COVID-19 from home

You'll have your results in minutes

COVID-19 testing remains an important part of keeping our families and communities safe. Anthem is offering at-home test kits to make COVID-19 testing more convenient.

COVID-19 testing helps protect the people around you

If you need to be tested, use your smartphone camera to scan this QR code and order your at-home test kit.

You can also order a test kit by downloading and logging in to the SydneySM Health mobile app and going to the *COVID-19 Resources* page. Find Sydney Health on the App Store[®] or Google Play[™]. If you don't want to wait for a kit to come in the mail, check your local pharmacy for over-the-counter COVID-19 tests. These tests are available at your expense.

This test is available at no charge for diagnostic testing only. A doctor's order, while normally required for testing to be covered under your plan, is not required when ordering a test through this limited program. The test typically arrives in two business days or less and provides results in 10 minutes. This test is for members who have symptoms of COVID-19 or who have been exposed to someone with confirmed or suspected COVID-19. This Rapid Diagnostic Test for the Detection of SARS-CoV-2 Antigen is an OTC Home Test for use under an FDA Emergency Use Authorization (EUA) for in vitro diagnostic use only. It is not being made available under FDA authorization for screening purposes.
